We wish you all had been there... The Colorado Compass Club foundation is getting stronger - member by member

If you missed our March Compass Club check-in, you missed something special. The energy in the room was undeniable as prospective and returning Rotarians came together to explore what makes this club—and Rotary—so unique.

At the heart of it all was a powerful idea: **Compass Club as a flexible, district-wide “learning and incubator space”**—a place to explore Rotary, discover your passion for service, and find the club that fits you best.

The conversation took us everywhere: from the life-changing impact of Rotary Youth Leadership Awards (RYLA) at YMCA Rockies in Estes Park, to meaningful service with seniors, to inspiring global stories—including one Rotarian who stepped in to run an orphanage in Africa. 🌍

And then came the big call to action...

EPIC Day of Service – May 16, 2026 - This is a powerful opportunity to experience Rotary service!

Projects are happening all across Colorado around May 16th—and this is your moment to jump in. Whether you're a seasoned Rotarian or just exploring, [find a project here, sign up, work shoulder to shoulder with Rotarians and neighbors](#) and be **part of something bigger**. Trust us—you don't want to be hearing about this one after the fact.

Our mentor club, **Denver Metro South Rotary** also invites you to a meaningful and inspiring gathering inside one of Denver's most iconic spaces—the Governor's Residence at the Boettcher Mansion. - [April 25th - Register Here!](#)

Even more exciting! Our momentum is growing:

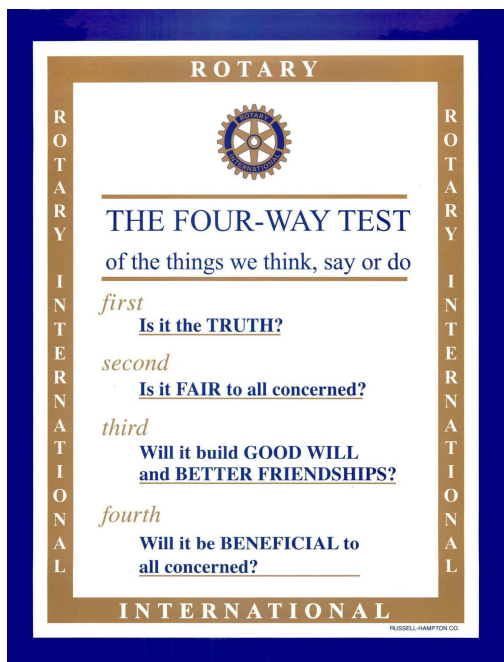

- Lisa McCann is moving forward with her membership application
- Kathryn Zeer and Debbie Setlock membership will help strengthen club operations and fellowship

This is how clubs grow—through people who show up, lean in, and say yes.

When a club reaches a core of at least eight active members, its energy multiplies—fueling creativity, strengthening fellowship, and attracting new members, fresh ideas, and greater opportunities to expand Rotary’s impact locally and around the world. Will you be one of our founding members? We hope so.

Don't Miss Our Next Meeting – April 22

April 22 5:00 pm MST

Topic: “Where Rotary Operates”

Presenter: Dave Willman

Guided by the spirit of the **Four-Way Test**, this session will highlight how our shared values—truth, fairness, goodwill, and benefit to all—connect Rotarians across cultures, languages, and continents.

Ever wondered how Rotary connects you across the globe? You’ll discover how those common principles create instant connection wherever you go—and how you can tap into Rotary’s worldwide network to find clubs, build relationships, and serve while traveling.

Plus: Hear a special 5-minute story from a Rotarian who visited a club abroad—because Rotary doesn’t stop at your zip code. You’ll leave understanding how Compass Club helps you explore Rotary before committing—while opening doors to a worldwide network.

Bottom line: Momentum is building. Opportunities are everywhere. Will you join us in April?

Your District Membership Ambassadors, Jolene McKenna & Compass Club Growth Committee
